Dr. Hatton worked 18 years in the public mental health system with people managing the effects of trauma. She has been in independent practice specializing in psychosis since 2011. She has conducted workshops on recovery-related issues across Michigan since 2009. She has extensive psychosis-specific training, including: • Certification in Open Dialogue family therapy • Facilitator, Hearing Voices Network • Ongoing training and supervision in evidence-based therapy for people diagnosed with “schizophrenia”
